

ALL NEW!

B17!

SUPER BENCH

REDEFINING THE COMBINATION BRAKE LATHE B17 SHOWN

Switching from resurfacing brake discs to drums takes merely seconds with the new P2 turret cutting head. Feed direction is automatically changed as you spin and lock down the head. The power plant of the B17 is a quiet DC motor which provides smooth operation across a wide of range of discs & drums. The B17 is equipped with our most advanced electronics package which tracks the number of rotors and drums machined, and provides customizable maintenance alerts! All of that and it's mounted on a mobile heavy duty tool cabinet to safely store all your necessary adapters and accessories. You just can't beat the B17's quality, precision and innovation from the folks who perfected on-car lathes!

➤ **RESURFACES BRAKE DRUMS AND DISCS** to exceed OEM specs for surface finish in one pass!

➤ **P2 ALL-IN-ONE CUTTING HEAD** No changing tooling here! Switch from drums to rotors in seconds!

➤ **NO TOOLS TO SET-UP** Levers, buttons, and knobs all operated by hand means no searching for tools!

➤ **MOBILE TOOL CABINET** stores all accessories and allows for easy cleanup of the work area.

➤ **ADAPTERS AND ACCESSORIES INCLUDED** for all passenger vehicles and light trucks.

➤ **ELECTRONIC CONTROL** With full servo control of feed & speed, there are no belts to change ever!
